Living and Thriving with Acute Myeloid Leukemia (AML)

Wednesday, June 17, 2020 at NOON EST

To register, please click HERE

This program will cover the recent approvals of novel, targeted agents for Acute Myeloid Leukemia (AML). We will discuss less intensive regimens incorporating targeted therapies that may be used to achieve remissions, even if intensive chemotherapy has failed. Older AML patients are receiving these effective regimens as initial treatment, and may then become eligible for a curative transplant. Finally, post-transplant AML patients are taking these oral agents in an effort to reduce further the risk of disease relapse. Dr. Harry P. Erba, MD, PhD of Duke University Medical Center will present on this important subject. His patient, Debbie Beavers, now in remission, will also share her recent AML experience. There will also be plenty of time for questions.

We acknowledge and thank the following Link Partners for their ongoing support.

American Society for Transplantation and Cellular Therapy (ASTCT) • Barbara Ann Karmanos Cancer Institute • Blood and Marrow Transplant Program at Northside Hospital • Blood & Marrow Transplant Program, The Sidney Kimmel Cancer Center at Thomas Jefferson University Hospitals • Center for International Blood and Marrow Transplant Research (CIBMTR) • City of Hope • Dana-Farber/Brigham and Women’s Cancer Center • DKMS • Duke Adult Blood and Marrow Transplant Program • Froedtert & the Medical College of Wisconsin Cancer Network • Henry Ford Cancer Institute • Incyte Corporation • Memorial Sloan Kettering Cancer Center • Meredith A. Cowden Foundation • Nebraska Medicine • Oregon Health & Science University Knight Cancer Center • Roswell Park Comprehensive Cancer Center • Seattle Cancer Care Alliance • Siteman Cancer Center at Barnes-Jewish Hospital/Washington University School of Medicine • Spectrum Health Cancer Center • Stem Cell Transplantation and Cellular Therapy Program, John Theurer Cancer Center at Hackensack University Medical Center • The Leukemia & Lymphoma Society • University Hospitals Seidman Cancer Center • UPMC Hillman Cancer Center • Vanderbilt Ingram Cancer Center

This FREE program is intended to provide psychosocial and emotional support along with health information from national experts regarding critical topics surrounding cancer and treatments. This program is recorded and available on our website one week after airing live.
