

Owning your Survivorship Plan Post Allogeneic Transplant

October 9, 2024
12:00-1:30 pm EST

Presentation Outline

Introduction to nbmtLINK

Minoo Battiwalla, MD, MS

Director of Outcomes Research, Sarah Cannon
Transplant and Cell Therapy Network

Meagan Jourdan-Brown is a Holistic
Psychotherapist and founder of The CAREport

Beth Ades, MDS Survivor, Wife, Mom, and more

Question and Answer Period

Our Mission

The National Bone Marrow Transplant Link (nbmtLINK) is dedicated to helping individuals and their families from diagnosis through survivorship. We work with hospitals, cancer centers, and other organizations to reinforce and complement medical care by providing resources, support and education.

We link you to experts across the country in all topics related to transplant and to others who have made it through the journey before you.

Resources to Help Families Navigate the Transplant Journey

- Lunch & Learn Programs, podcasts, multiple webinars, and blogs from those who have been through the transplant process on all things related to transplant including disease specific information, survivorship issues, coping, and symptom management.
- Survivors Thrive Book Club and other programs to connect our community
 - Peers Support Mentor Program for Patients and Caregivers
 - Second Birthdays Recognition Program
- Resource books, materials, emotional support from a licensed social worker and referrals

Special Thanks To Our Webinar Event Sponsors

The Leukemia & Lymphoma Society

Johnson & Johnson

and

Our esteemed Link Partners for their continued

support in all we do

Today's presentation is meant to inform and support, it is not intended to replace individualized medical advice

nbmtLINK and the presenters do not recommend or endorse any specific products, therapies, websites or clinical trials. The treatments, therapies, products, trials and websites mentioned during the webinar are provided as a convenience to you and to promote dialogue between you and your health care team about supportive care approaches in chronic GVHD. Before adding any new approach or treatment to your regimen, you should discuss this with your health care provider to determine if that intervention is right for you.

Physician, Director, Professor

Mino Battiwalla, MD, MS

Director of Outcomes Research, Sarah Cannon Transplant and Cell Therapy Network

Dr. Battiwalla joined Sarah Cannon in 2018 as the director of outcomes research. In his role, he designs and leads retrospective outcomes research across the Sarah Cannon Transplant and Cellular Therapy Network with a special emphasis on blood and marrow stem cell transplantation and cellular therapy.

Dr. Battiwalla received his medical degree from Medical College in Calcutta, India in 1994. After completing an internal medicine residency at Stony Brook University Hospital, in New York, he finished a fellowship in hematology/oncology/BMT at National Institutes of Health in Bethesda, Md. He also earned a Masters of Health Science degree in clinical research in 2003 from Duke University School of Medicine.

Prior to joining Sarah Cannon, Dr. Battiwalla served as the medical director of the blood and marrow stem cell transplant program at the National Heart, Lung and Blood Institute in Bethesda, Md. from 2010-2018 and chaired the NIH BMT Consortium. Previous to this, he was an assistant professor and associate scientific director at the Roswell Park Cancer Institute in Buffalo, N.Y. from 2003-2009.

Dr. Battiwalla has spearheaded efforts in the field of stem cell transplant survivorship and has co-chaired the NIH Late Effects after BMT consensus initiative as well as the Center for International Blood and Marrow Transplantation Late Effects Working Committee.

Dr. Battiwalla is actively certified by the American Board of Internal Medicine with further certification in hematology.

Holistic Psychotherapist

Meagan Jourdan-Brown is a Holistic Psychotherapist and founder of The CAREport, LLC, where she offers in-person and virtual therapy to residents of IL, MN, IA, and OH. She has special training in Energy Psychology, Mind-Body Medicine, and Therapeutic Laughter. For nearly 13 years she was a core-member of an interdisciplinary cancer care team, serving as an end-of-life doula, and bringing her unique perspective to the "human side" of complex diagnosis, treatment/recovery, and complicated grief.

Meagan was born and raised in Chicago, IL , where she lives with her husband and their cat, Doctor Butters.

Beth Ades, Survivor

Beth Ades is from rural Iowa, married with one daughter, and a cat mom.

She was diagnosed with MDS in 2021 and received her stem cell transplant in 2022 at Mayo Clinic in Minnesota.

Beth is passionate about giving back, helping/educating donors and their families, and shares and infectious joy for life. She currently sits on our Board at nbmtLINK and helps us make our organization the best it can be.
